

## Competition Grading Structure

If you have only just started playing, then your club should be providing you with the opportunity to compete within your programme so you can see if you like it and so your rating can improve.

If you have played some matches within your club and are now looking for the next challenge, then look no further than our competition listings for Surrey!

Club (grade 6) events are aimed at less experienced players who may not have played a great deal of competition before; Junior Tour (grade 5) events are aimed at those players who have some competitive experience already.
