

SKILL APPLICATION

Target Hoops

Pupils self-select to use either their racket hand or a racket.

In pairs, pupils stand opposite their partner either side of a net. Each pupil stands behind a line and has a hoop on the floor in front of them.

Pupil 1 push serves the ball aiming to get the ball to land in Pupil 2's hoop, scoring 1 point if the ball bounces in the hoop. Pupil 2 then push serves the ball back aiming to bounce the ball into Pupil 1's hoop.

Repeat.

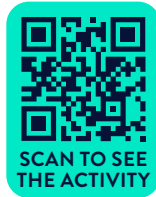

Teaching Points:

Server:

- Stands with opposite shoe to racket hand forward
- Balances the ball in non-hitting hand in front of the shoes
- Uses a pushing action contacting underneath the ball.

Skill UP:

- How many points can you score?
- Can you beat your score?
